EXPERTISE

- Web Development
  - Python (Django,Fast API)
  - PHP (Laravel)
  - MySQL
  - JavaScript
  - React.js
- Back-end Development
  - Building RESTful APIs with Django & Fast API
  - Building full-stack application and RESTful APIs in Laravel
  - Database design and management (MySQL)
  - Server-side scripting and logic implementation
- Front-end Development
  - Single-page application development with React.js
  - User interface design and implementation
  - Responsive web design
  - JavaScript programming
- Other Skills
  - Version control with Git
  - Agile development methodologies
  - Collaborative coding and code reviews

OBJECTIVE

Motivated Full-Stack Developer with a strong foundation in both front-end and back-end development. Proven expertise in building scalable web applications and custom solutions using modern frameworks. Seeking to leverage my skills and experience to contribute to a dynamic development team.

WORK EXPERIENCE

Laravel Developer

IT-Bridge Nepal   2020-Now

- Fixed bugs and optimized the codebase to ensure efficiency and timely resolution.
- Collaborated effectively with team members, showcasing leadership and communication skills.
- Implemented new features and optimized database queries for better performance.
- Developed custom middleware and improved application security.
- Built and maintained scalable solutions, including a custom CMS and RESTful APIs.

Python Developer

IT-Bridge Nepal   2020-Now

- Resolved bugs and issues across the codebase, ensuring efficient and timely solutions.
- Collaborated with engineers, designers, and managers, demonstrating strong communication and leadership.
- Implemented new features, including RESTful APIs and optimized data workflows.
- Created a mock database in FastAPI for testing, reducing reliance on live databases and speeding up the process.
- Built a scalable custom CMS in Django using modular design principles.
- Developed real-time features and optimized backend logic in FastAPI for high-performance APIs.

Front-end Developer

                                                  2022-now

- Crafted a custom CRM using React.js , which resulted in a 22% increase in sales and a 25% increase in customer retention.
- Implemented data and security protection systems.Implemented data and security protection systems which went well beyond industry standards and regulations.
- Worked closely with the UX department, resulting in a more refined product which boosted customer satisfaction scores by 12%.
- Collaborated with the DevOps team to create a product roadmap for a software product using continuous integration and continuous delivery (CI/CD), reducing software release times by 45%.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSC.CSIT)
NIST College, Banepa, Nepal
